

The Great Burgess Spiral Dog

Buy Oscar Meyer all beef bun-length hot dogs

Take a sharp knife (or buy any of the spiral tools if you prefer) and cut a spiral cut from the top of the frank twisting to the bottom. Try not to cut the spiral too deep but also not too shallow. Find the rhythm.

Place the all-beef franks on the grill at medium heat. As the franks begin to cook start applying with a brush Bullseye Original BBQ Sauce. Apply numerous times, when it burns off or begins to crystalize apply more.

Cook the all-beef franks to the point that the spiral is open, the inside is cooked and the BBQ Sauce has become crispy and slightly burnt. If you have room on the grill toast the hot dog buns on the upper grill. If you don't have room or just prefer, heat the buns in the microwave for about 15 seconds.

The best condiment options are as follows: Spicy Mustard with Horseradish, Redneck Lipstick liquid bbq sauce, diced onions, Sauerkraut, regular mustard, and slawsa.

Enjoy,

Rick
